No.: 1668

29 Nov. 1944

Conclusion of 930[a].

4. The Economic Intelligence Section of the FARM [KhUTOR][i], which forms part of the Special Areas Branch, is headed by Walter RUDLIN, in whose words the activities of the FARM are at present "frozen" as are those of IZBA[ii]. RUDLIN's section writes special summaries [SVODKI] for the FARM's agents and various economic intelligence [D% organs] [1 group unrecovered] in which is given an evaluation of the materials which come into CARTHAGE [KARFAGEN][iii] from their agents and instructions about forwarding [them to][b] further economic intelligence [C% organs]. There is also a Liberated Areas Branch which deals with the administration of the liberated territories (and territories occupied by the COUNTRY [STRANA][iv]). RUDLIN says that the FARM does not enjoy the attention of the LEAGUE [LIGA][v] [C% and] the retirement of the head of the FARM, Leo CROWLEY [KROLI], is possible; in the future either the LEAGUE will recognise that the FARM is essential and assign suitable funds and pay due attention to it or it will be "divided" [PODELEN] between the BANK [BANK][vi], the Department of Commerce [c] (henceforth the "TEA SHOP" [ChAJNAYa], and other departments.
